WEBNESDAY, SEPTEMBER 8, 1858. Reading Matter on every page.

The Gubernatorial Race. We publish this morning, from the Democrat o ast Friday, the letter of Capt. Wm. J. Heady, unnouncing himself a candidate for Governor. 'apt. Ileady, who is our personal friend, is a ster-

ling Democrat and a high social gentleman of the

We regret, however, that we are seemingly to have two candidates from the same district for the chief executive of the State. There has already been a pretty general expression of the political ppinion of this district, and it has gone forth that Col. William Preston is the man for the occasion. Iudeed, it was said during the last session of our Legislature, when his friends designed presenting his name for the U. S. Senate, that he should e reserved for the gubernatorial race in 1859. ome of our leading politiciaus and editors fell nto that view of his case, and they still adhere

o the wisdom of that opinion. Besides the expression of opinion among many of the leading politicians of this district, letters have been sent to the Courier, for publication, from different parts of the State. One of these from a veteran Democrat of a quarter of a century's service, urged the nomination of Preston as a new and indissoluble bond of union between the old line Democrats and the old line Whigs who came together into one family of patriots upon the advent of Know Nothingism. The crawded state of our columns prevented as from mublishing these letters, for some of them were as ong as the moral law. We will, however, publish to-morrow morning one from Oldham, which s in character with the many communications reseived, and the articles we have heretofore co pied from such organs as the Frankfort Yeoman, he Bowling Green Standard, the National Deniocrut and other Democratic papers in the State, all indicating the popular mind upon this sub-

The Mayoralty.

In the First and Second Wards, Democratic acetings have been held to ascertain the feeling of the Democracy as to the expediency of running a candidate at the special election for Mayor to be eld on the 4th of October. These two wards have pronounced in favor of running a candidate, and it is proper that the other wards hold similar neelings, with the view of ascertaining what is the general feeling on that subject.

The present election was gotten up by the ex rtions of Gillis and Weatherford and their backrs, each of the two hoping he would be the Black lepublican nominee. The ostensible pretext was veto by Mayor Riley of an unlawful and unauhorized appropriation of public money. Not one of Mr. Riley's political opponents called for an election. He was selected to fill out the term of lieu. Pileher, and there was not even a suggestion of an intention by the council to order an election. if an intention by the conneil to order an election. Then came the veto ailuded to, and then came the order to oust Riley. The latter was evidently not the supple tool it was supposed he would prove, and his prompt rebellion afforded sad augury of his future. He was not to be allowed to stand in a position where the highest functionary in the municipal government might again say to the people that their servants were unfaithful .-There was a thought of self and the future, against the consummation of which Mayor Riley rose as a dreaded opponent. In advance, we wish to warn the public against this new project

adicted for offenses committed on the last election ay; but on what charge or charges, we know not eaches of the peace or minor oflenses of that ount for attempting forcibly to prevent qualified oters from giving their votes, though such things rere done at the Sixth Ward polls and elsewhere, We mean no censure in calling the attention of the city attorney and the grand jury to the facts stated, and the law given below. Perhaps they have been overlooked, or the witnesses are yet to be sent before the grand jury. In the Revised

Statutes, page 302, is the following : Sec. 13. Auy person who, by himself or in aid ing of an election, or so abstruct or allempt to obstruct the same, or so that is forcibly prevent or attempt to prevent any qualified voter from giving his rote, shall be fined from fifty to five hundred. dred dollars, or imprisoned not more than one

The Poll Tax

Every good citizen, all who oppose the present nisrule in city allairs, all who oppose the riots nd disturbances which have so long disgraced auisville, should go at once and pay their poll ax. See that your receipts are dated. There will be no lack of ingenious squires and judges of election to find objection to the right of any cititen to vote who does not vote for a continuance f misrule. We do not know that the people deire any election, or will present any candidate; at every voter should be prepared to exercise his right and discharge his duty to the public of casting his vole.

Look Out for Fraud. Two poll tax receipts have been shown to us which hear no date-each given to a Democrat .-As the law requires the tax to be paid twenty days before the election, it is uccessary to affix a date to establish that fact. We caution voters to look to their receipts, and see that they are dated, Such as have been issued heretofore without date, should be taken back to the collectors, that the

omission may be supplied. DEATH OF LION. CHILTON ALLEN.-The demise of this distinguished Keutucky politician occurred at his residence, in Clarke county, last week. Mr. Allen represented his district in Congress from 1831 to 1837, both years inclusive. He was always devoted, with great fidelity, to the political fortunes of Mr. Clay. Of late years he has occupied no prominent public trust, but his name has been repeatedly mentioned in connection with the ollice of Governor. Brilliant as was his career as a politician, his brightest fame will be the great moral purity that ever distinguished his charac-

llocs and Corn in Onio .- We have been shown by a commercial house in this city, two other letters from points in Ohio. One dated Massillon, August 31st, says that the prospect for a full corn crop is good, while the hogs will be as great iu numbers as any previous year, and better in quality. A correspondent at Marietta writes that the corn crop in that section, owing to the extreme wet weather in the spring, is much later than usual, but that should there be no early frost-

LETTER FROM ILLINOIS.

[Correspondence of the Louisville Courier.] Doughts' Prospects for the U. S. Senul. CHICAGO, Sept. 4, 1858.

Editors Louisville Courier: The intelligence eceived vesterday and this morning from the inerior of the State, strongly indicate the success of Douglas. His powers as a great popular oraor were never before so fully displayed. Immens rowds greet him at every point, and each speech a triumph. One clear, vigorous, bold mind thinks and utters. Five thousand at a time lister and believe. That's a triumph, and such is Doug las daily winning. Is there any other American statesman now on the stage who can do the same thing? All say that he is gaining. His friends say that he is invincible. The large chances are that he will carry the State and he returned to tho Senate. If so, what's the result? That d ends on the Southern Democracy.

I am very much afraid that the South is about o commit a great error. A large portion of the oress have opened upon him, and from high places a species of ostracism, applied to his immediate friends, has sought to drive him from his party. He feels his power, and sees the future. He is trying to exercise the one and shape the other so as to continue the supremacy of the Democracy. He knows as you know that without him the Democracy will cause to exist as a im the Democracy will cease to exist as a suc nin the Democracy will cease to exist as a successful party in every Northern State. He is preparing a plan for the campaign of 1860. In the results the South will risk everything, perhaps her relations with the Union. The choice will be between Black Republicanism, more disorganizing than in 1856, and Democracy with the platform Douglas is now building. His purpose is orin Douglas is now building. His purpose in unike his party omnipotent in the Northwest and then with the aid of the united South to brin Abolitionism and its kindred not only into dis-About the history and its kindred not only into disrejute but into disorganization. His plan is deep,
statesmanlike and honest. You will be the gainer by it, and he is drilling the Northeru Democracy to fight your hattle. There is no other
means by which you can be saved. Without him
it will be unanimous Democracy South, and
unanimous Black Republication North. manimous Black Republicanism North.

Then as the editor of a leading Southern paper, which the Courier is everywhere acknowl-

edged to he, we urge you to persuade the South not to repudiate and desert the only leader under whose flag aloue they can conquer. This is the error which I feared the South was about to mit. The Kansas question is over. It was al ways one more of tact than principle. Its adnission as a State under or against the English bill, can he determined on as a fact to be ascertained by an examination of precedents. Its political destiny is lixed, and the South cannot change it. These things, which belong to the past, are now of no importance to the future—for in none was a cardinal principle involved—sink into insignificance in comparator with the sank nto insignificance in comparison with the grand ourpose to be gained! That purpose is the con-olidation of the Democracy North and South. loughas is the only man equal to the occasion. In very portion of the Northwest, "one blast of his oughe is worth ten thousand men." But if de feated in his own State, the spell is broken, and the Democracy is broken too. This result is not anticipated, nor is the least to be feared, except from one cause. The Democrats of Illinois have been purified with fire. For ten years Douglas has prepared the crucible. So true are they to the great doctrines of State rights against fed gainst the leader whom, since 1852, they have bellowed in every victory they have won. Man doubt, some rebel, a few desert at the very m ment the Democracy are being charged by the s broken in Illinois, it will be because the Dem ocracy here think they are tighting under the or ield the vantage ground in the North to Black

Republicanism. If the Democracy of the South will follow the adice and example of Toomhs, Stephens, Soule and others of their best statesmen, who declare their nushaken confidence in Douglas, and ask that Il-iuois will still lend his great talents and unloubted natriotism to the services of our natio of public plunder.

The last legislature passed a law repealing the clause in the charter allowing pay to members of the connect. These gentlemen will seek to the connect. These gentlemen will seek to the protection of the connect. These gentlemen will seek to the protection of the connect.

Thus, since the foundation of the Government we find three several reductions of the public debt by purchase and redemption, first to the extent of hirtymillions, then to the extent of one hundred and twenty-seven millions, and lastly, to the extent, in live years, by purchase, at a high premium, lifty-one millions. The present debt, including t ten millions just negotiated, stands twenty millions less than at the close of the Revolution, or on the adoption of the Constitution, when the whole poulation of the country was only 4,049,000 souls against 19,700,000 souls in 1858.

WALNUT SPRING, Jefferson Co., Sept. 1, 1858. Mesers. Editors:—Within a few months past, va-rious inquiries have been made by letter and other wise, whether or not my name may be used by my friends in connection with the canvass for a can-didate for Governor of Kentucky. In giving my consent, I must express the deep emotion of a grateful heart for this offer, by partial friends, its invest me with the duties and honors of the most distinguished office in the gilt of the intelligent people of this renowned old Commonwealth. The telegraph has advised us of the arrest of a number of the men concerned in mobbing and burning the Quarantine Buildings. They were admitted to bail in \$1,000 each.

The New York papers of Saturday morning con. ain additional particulars of the destruction of this property. After giving the details of the firing of the buildings, the New York Herald snys: The moh, not satisfied with firing the above claces, proceeded up stairs and actually set fire to he beds in the rooms where some of the sick

were lying. Many of the poor, unfortunate sick, who had not been off their beds for weeks, managed to crawl along do on stairs, thus making their escape. Were it not for some persons, there is no doubt but that at least half a dozen would have perished in the flumes. Detective officer Slowey, who was also present, was unwearied in his exertions to get the sick out of the building. He succeeded in saving three per-sons who were contined with the yellow tever, and another with the small pox. Mr. Slowey also had a very narrow escape from being drowned.— While the long pier which afterwards took fire was burning, he observed a man lying on one of llames to the unfortunate old man, and in doing so had his cap hurnt off his head. Entering through the breach in the west side of the wall a large party came down to the Women's the walla large party came down to the Women's sluspital, and began to remove the patients. The scene was horrible. The poor creatures, in every stage of suffering, some delirious from fever, and others in a dying state, were taken out apon their reeking matresses, and placed one after another upon the green sward in the angle farmed by the two walls, and about fifty vards from the building. One who had just died of vellow fever was placed in the covered hier, taken out and set down close by the others. One was pointed out as just breathby the others. Une was pointed out as just breathing his last. The gaunt features and sunken eyes of these poor wretches as they lay scattered over the ground, were perfectly visible in the light of the burning dwelling behind them. Burning cinders tell in showers amoug them. In full view before them was the noble edifice in which they had been sheltered and nursed, now wrapped in flame from basement to dome. The roar of the flames, the clouds of dense smoke rolling upward, the furious outcries of the mob, crazy with their infernal work, all formed a scene most horrible and impressive. At one time the moh were intent on carrying the patients out into the street, through the hole in the wall, for fear that they would be sufficient by the smoke and flames. It was only hy strong remonstrances from a portion of the parly that this was not done. The covered way leading from the huilding to the privies was torn down, so that the heat from it would not destroy

the sick people. These attentions to the helpless creatures were a redeeming feature. Few of the outsiders ventured in to take a near danger of destruction appeared to satisfy them, and nobody inquired how they were to be provided for afterwards. They remained thus exposed to the excitements of this appalling spectacle during the whole night, and three of them died before morning. Their corpses remained unburied with the living up to a late hour where they were left on the ground.

The fire was set in three or four places in this building, but the centre of it, about the stairway, was where the fire made most progress. The draft upward soon carried the flumes up to the cupola, which was in full blaze before the wings were well under way. There was only a light air from the southward, which fortunately carried the

Death of Dr. B. F. Harney.

We regret to chronicle the death of this venera-de gentleman, which sad event took place yesterday, (Sunday, 20th inst., 1 at his residence in this city. Dr. Harney was born in the State of Dela-ware. OF CHILDREN MINGLED.—During the severe gale in Thursday night, the dwelling house of C. Glens-eckle, located at the side of the Bluff at the head of Main street, was blown over the rock, and falling about seventy-five feet was inerally mashed to pieces, and horrible to relate, Mrs. Glensbeckle was killed outright, and her four little children were all more or less using led, but not killed, though one or two of them will die. The accident oc-curred about ten o clock P. M., and soon after the alarm was given, and our citizens rushed to the scene of disaster, and rescued the little sufferers from among the rubbish and timbers. It is a houses tood on stilts, as it were upon the very edge of the rock, and the wind must have lifted it up and turned it bottom upwards, as it seemed to strike upon the roof. Democratic Meeting Last Night. There was a good attendance last evening at the meeting of the Democratic Association of the Third and Fourth Wards. The very best spirit prevailed, and proper action was taken to complete the good work so happily begun in August -the disenthralment of our city from the miserable misrule of the jail clique.

Committees of four in each ward were ap pointed to prepare a list of voters and urge upon each Democrat the necessity of immediate payment of his poll tax. We trust that similar action will be taken in all of the wards. If so, we can guarantee the people a victory at the coming

EXHIBITION OF THE MECHANICS' INSTITUTE. - Yes terday the hall of the Mechanics' Institute was thrown open for the reception of articles, and we were pleased to see that quite a number of persons availed themselves of the privilege. There is every indication that the coming exhibition will be quite as succeesful as those of any previons year. In fact it should excel just in proportion to the progress of Louisville. Our citizens having established this enterprise should take no steps backward. Eccelsion should be the motto, and pride in the richness of our resources and the skill of our citizens should stimulate all to lend a helping hand. It will not do for any to be lag gards. The approaching State fair will draw thousands to our city, and these strangers will naturally take the exhibition of the Mechanics Institute as an example of what Louisville mechanics and manufacturers can accomplish .-Hence the necessity of all classes of workmen he ing represented by some specimens of their han diwork. FINE LIQUORS AT WHOLESALE. - Our old neighbors, Ward & Cary, whose former proximity to the Courier was a constant source of spirited of fusions, have disappeared from our vicinity, but only to reap a richer harvest of business and profits in their new location. They are now to be found in the elegant block on Main street, above the Galt House, where they have a most superb assortment of articles in their line. The proprietors being gentlemen of taste and truthfulness, whatever they offer to the public can be relied upon as of a superior quality.

THEATER- Der Freischutz .- For the first time is Louisville, if not indeed in the West, the great opera Der Freischutz, or the Seven Magic Bullets, written by the grand maestro, Carl Von Weber, will be performed to-night in the Louisville Theater. The opera has been gotten up with great care, and will be presented in a style of unusual magnificence. It is a hold un lertaking, this, to present the grandest opera that has been pro duced; but we are assured the high degree of excellence of the troups will surmount all obstacles.

The old man died, and the youth disposed of the animal, not knowing how it came into his father's possession. The testimony exonerated him. WHERE TO GET LUNCHEON.-Hudson Hall, in

the grand Masonic Temple, was much resorted to vesterday. No wonder. The proprietors, Messrs. They will continue throughout the season to regale the public with just such admirable repasts, precisely at 10 o'clock each morning.

On being made acquainted with his wife's perfidy, he sent a letter to his congregation resigning his pastorate. There are many who sympathise with him in the disgrace which the shameless conduct of his wife has brought upon his household. It is supposed that the guilty pair have gone to Europe.

The Brandy, Old Bourbon, Holland Gin, Port, Madeira, Sherry, Champagne, Catawba and Claret Wines, also the Cigars and Tobacco with which my bar is adorned, have been purchased, regardless of high prices, from o'd correspondents, and are therefore justify deserving the high enconiums which "connoinsesurs" have been pleased to bestow upon my plain and combination-drinks, each and all of them prepared and handed out in "our own intimitable etyle." In addition to the attractions of the bar, I have also furnished in the second-story of the editice a large and alry BILLIARD SALOON,
